

BRIGHTLINE RETAIL GROUP

Supply Chain Procurement & Vendor Management

REVISED ISSUE – SUPERSEDES RFP-BRG-2026-0231

REQUEST FOR PROPOSAL

Warehouse Management System (WMS), Fleet Telematics & Cold Chain Monitoring Program

A multi-year supply chain and food-safety technology modernization initiative

RFP Number	RFP-BRG-2026-0231-R1
Issue Date	June 2, 2026
Proposal Submission Deadline	July 14, 2026, 4:00 PM CST
Issuing Organization	Brightline Retail Group (BRG)
Category	Supply Chain Technology — WMS, Fleet Telematics & Cold Chain Systems
Estimated Contract Value	See Section 12 — Commercial Terms

1. Introduction & Background

Brightline Retail Group (“BRG” or “the Company”) is a national retail chain operating 11 regional distribution centers and a private delivery fleet of 780 trucks across 22 states, supplying 1,400 retail stores, following the March 2026 acquisition of Meridian Grocers' logistics network, which added two refrigerated distribution centers and expanded BRG's presence into the grocery and perishables category for the first time.

BRG's current Warehouse Management System (WMS) was implemented in 2013 and no longer supports the throughput, integration, and reporting needs of the Company's growing store network. In parallel, BRG's delivery fleet currently relies on a basic GPS tracking add-on with limited real-time visibility, route optimization, or driver performance reporting capability. Following the Meridian Grocers acquisition, BRG must also establish temperature-controlled (“cold chain”) monitoring across its newly acquired refrigerated facilities and trucks to maintain food safety compliance.

BRG is reissuing this Request for Proposal (RFP) to solicit qualified vendors to replace its legacy WMS, implement a modern fleet telematics platform, and deploy cold chain temperature monitoring across its distribution and transportation network.

2. Definitions

Term	Definition
WMS	Warehouse Management System — software used to manage inventory, receiving, put-away, picking, and shipping within a distribution center.
ERP	Enterprise Resource Planning — BRG's existing SAP S/4HANA system of record for finance, procurement, and inventory accounting.
Telematics	Technology used to remotely track and monitor vehicle location, performance, and driver behavior.
RFID	Radio-Frequency Identification — tagging technology used for automated inventory tracking.
DC	Distribution Center — a BRG regional warehouse facility.
Cold Chain	The temperature-controlled supply chain used to preserve perishable goods from storage through delivery. [NEW]
FSMA	Food Safety Modernization Act — U.S. federal law governing food safety and traceability requirements. [NEW]
SLA	Service Level Agreement — a contractually defined performance commitment.

3. Project Objectives

- Replace the legacy WMS across all 11 distribution centers with a modern, cloud-capable platform.
- Implement a fleet telematics platform providing real-time location, route, and driver behavior visibility across the delivery fleet.
- Integrate the WMS with BRG's existing SAP S/4HANA ERP for inventory and financial accuracy.
- Reduce order picking errors by at least 30% within 12 months of full deployment.
- Improve on-time delivery performance to retail stores to 98% or higher.
- Equip warehouse staff with modern handheld scanning tools to replace aging RF terminals.

- Establish continuous cold chain temperature monitoring across refrigerated distribution centers and delivery trucks to protect perishable inventory and support FSMA compliance. [NEW]

4. Scope of Work

1. Design, configure, and deploy a replacement WMS across 11 distribution centers, including the two newly acquired Meridian Grocers refrigerated facilities, supporting receiving, put-away, picking, packing, and shipping workflows.
2. Implement a fleet telematics platform covering approximately 780 delivery trucks, including GPS tracking, route optimization, and driver behavior scoring.
3. Integrate the WMS with BRG's existing SAP S/4HANA ERP system for real-time inventory and order synchronization.
4. Migrate historical inventory, location, and SKU master data from the legacy WMS and from the Meridian Grocers legacy inventory system to the new platform.
5. Deploy a handheld scanning application for warehouse staff, compatible with BRG's existing Zebra device fleet.
6. Deploy IoT-based cold chain temperature and humidity monitoring across refrigerated storage areas and refrigerated delivery trucks, with real-time alerting for excursions. [NEW]
7. Implement automated FSMA-compliant traceability and temperature-log reporting for all perishable goods movements. [NEW]
8. Provide operator and administrator training for approximately 1,150 warehouse and transportation staff, including cold chain handling procedures.
9. Provide 24 months of post-implementation technical support and system maintenance following final go-live.

5. Technical Requirements

5.1 Warehouse Management System (WMS)

- Support for barcode and RFID-based inventory tracking.
- Configurable slotting optimization and wave-picking logic.
- Real-time inventory visibility across all 11 distribution centers from a single console.
- Support for cross-docking and case-level and each-level (piece) picking.
- Support for lot- and expiration-date tracking for perishable SKUs. [NEW]

5.2 Fleet Telematics

- Real-time GPS vehicle location tracking with a maximum 30-second refresh interval. [MODIFIED]
- Automated route optimization based on delivery windows and store priority.
- Driver behavior scoring (harsh braking, speeding, idling).

5.3 Cold Chain Monitoring [NEW SECTION]

- Continuous IoT sensor-based temperature and humidity monitoring in refrigerated storage zones and refrigerated trailers.
- Automated real-time alerting to designated staff when temperature excursions exceed configurable thresholds.
- Digital, timestamped temperature logs retained and exportable for regulatory inspection, consistent with FSMA recordkeeping requirements.

5.4 Hosting, Availability & Security

- Deployment model: cloud-hosted only, using AWS or Google Cloud Platform. On-premise deployment will not be considered. [MODIFIED — REMOVES ON-PREM OPTION]
- System uptime service level agreement (SLA) of 99.9% or higher for hosted WMS, telematics, and cold chain monitoring components, measured monthly. [MODIFIED]
- Redundant hosting across two geographically separated regions or availability zones. [NEW]
- Single sign-on (SSO) support via SAML 2.0 or OpenID Connect (OIDC), integrated with BRG's existing Active Directory. [MODIFIED]
- Encryption at rest (AES-256 or equivalent) and in transit (TLS 1.2 or higher).
- Operational and transaction data retention of a minimum of 5 years, including cold chain temperature logs. [MODIFIED]

5.5 System Integrations

- API-based, near-real-time integration with BRG's existing SAP S/4HANA ERP system for inventory, order, and shipment data.
- Integration with BRG's existing Zebra handheld device fleet for warehouse scanning.
- Integration with the Meridian Grocers legacy inventory system pending full data migration. [NEW]

6. Functional Requirements Matrix

Vendors must indicate compliance with each functional requirement in their proposal response using the codes: F (Fully Compliant), P (Partially Compliant — explain), C (Customization Required), N (Not Supported).

ID	Requirement	Priority
FR-01	Real-time inventory dashboard across all distribution centers	Mandatory
FR-02	Automated wave-picking optimization	Mandatory
FR-03	Handheld scanner offline mode with sync-on-reconnect	Mandatory
FR-04	Driver behavior scoring dashboard	Mandatory
FR-05	Configurable KPI reporting for on-time delivery	Mandatory
FR-06	Role-based dashboard customization	Desired
FR-07	Real-time cold chain temperature excursion alerting	Mandatory
FR-08	FSMA-compliant traceability report generation	Mandatory
FR-09	Lot- and expiration-date tracking for perishable SKUs	Mandatory

7. Eligibility Criteria

To be eligible for consideration, vendors must meet all of the following minimum criteria:

- Minimum of 8 years of experience implementing WMS and/or fleet telematics systems for multi-site retail or distribution operations. [MODIFIED]
- Minimum annual revenue of \$18,000,000 (audited financials for the most recent fiscal year required). [MODIFIED]
- At least 5 reference implementations for distribution networks operating facilities of 500,000+ square feet, completed within the past 5 years, of which at least 2 must include refrigerated/cold chain logistics. [MODIFIED]
- Vendor must demonstrate prior experience with FSMA-compliant food traceability systems. [NEW]
- Minimum insurance coverage: \$6,000,000 general liability; \$2,000,000 professional liability/E&O; \$3,000,000 cyber liability. [MODIFIED]
- Performance bond equal to 75% of the awarded contract value. [MODIFIED]

8. Deliverables

#	Deliverable	Due
1	Project Charter & Implementation Plan	30 days after contract award
2	WMS, Telematics & Cold Chain System Design Document	60 days after contract award
3	SAP ERP Integration Design & Test Report	100 days after contract award
4	WMS Phase 1 Deployment — 3 Pilot Distribution Centers	Per Phase 1 milestone
5	Legacy Data Migration Completion Report (incl. Meridian Grocers)	Prior to Phase 2 go-live
6	Fleet Telematics Full Rollout (780 Trucks)	Per telematics milestone
7	Cold Chain Monitoring Rollout — Refrigerated DCs & Trucks [NEW]	Per cold chain milestone
8	FSMA Traceability & Compliance Report [NEW]	Prior to final acceptance
9	Training Materials & Delivered Sessions (1,150 staff)	Prior to each go-live
10	WMS Full Rollout — Remaining Distribution Centers	Per final WMS milestone
11	Final Documentation Package	Project close-out

9. Project Timeline

Milestone	Date
RFP Reissue Date	June 2, 2026
Vendor Q&A Deadline	June 16, 2026
Proposal Submission Deadline	July 14, 2026
Shortlist Notification	July 28, 2026
Vendor Presentations	August 4 – 8, 2026

Milestone	Date
Contract Award	August 21, 2026
Project Kickoff	September 8, 2026
WMS Phase 1 Go-Live (3 Pilot DCs)	April 2027
Cold Chain Monitoring Go-Live [NEW]	July 2027
Fleet Telematics Full Rollout	September 2027
WMS Full Rollout (Remaining DCs)	January 2028
Full Project Completion	March 2028

10. Evaluation Criteria

Proposals will be scored on a 100-point scale as follows:

Criterion	Weight
Technical Solution & Architecture	25 points
Vendor Experience & References	15 points
Implementation Timeline	10 points
Cost	25 points
Support & Maintenance Plan	10 points
Food Safety & Cold Chain Compliance [NEW]	10 points
Cybersecurity Approach [NEW]	5 points

11. Insurance & Bonding Requirements

- Commercial General Liability: \$6,000,000 per occurrence. [MODIFIED]
- Professional Liability / Errors & Omissions: \$2,000,000 per claim. [MODIFIED]
- Cyber Liability: \$3,000,000 per occurrence, covering data breach and business interruption. [NEW]
- Performance Bond: 75% of total contract value, issued by a surety rated A- or better by A.M. Best. [MODIFIED]
- BRG and its officers, agents, and employees must be named as additional insureds on all policies except professional liability.

12. Commercial Terms

Estimated Project Budget: \$7,000,000 – \$9,500,000

Contract Term: 36 months, with two (2) optional 12-month renewals.

Payment Schedule

- 15% upon contract signing
- 20% upon WMS Phase 1 go-live
- 20% upon cold chain monitoring go-live [NEW]
- 20% upon fleet telematics full rollout
- 15% upon WMS full rollout
- 10% upon final acceptance

Other Commercial Terms

- Warranty period: 24 months following final go-live, covering defect remediation at no additional cost. [MODIFIED]
- Payment terms: Net 30 from invoice date. [MODIFIED]
- Liquidated damages: 0.5% of total contract value per week of delay against the approved schedule, capped at 10% of total contract value. [NEW]

- Retention holdback: 5% of each milestone payment withheld and released upon final system acceptance.
[NEW]

13. Submission Instructions

Proposals must be submitted electronically in PDF format to proposals@brightlineretail.com no later than the deadline listed above, accompanied by one signed hard copy delivered to the BRG Supply Chain Procurement Office. Proposals must remain valid for 150 days from the submission deadline. Late submissions will not be considered.

14. Terms & Conditions

14.1 Governing Law

This RFP and any resulting contract shall be governed by the laws of the State of Texas.

14.2 Confidentiality

All proposal materials submitted become the property of BRG and will be treated as confidential business information, subject to standard non-disclosure obligations between the parties.

14.3 Reservation of Rights

BRG reserves the right to reject any or all proposals, waive minor irregularities, and negotiate final contract terms with the selected vendor.

14.4 Intellectual Property

All custom configurations, integrations, and documentation developed specifically for BRG under this engagement shall become the property of BRG upon final payment. Vendor retains ownership of pre-existing, generally licensed software.

14.5 Food Safety Compliance [NEW]

Vendor must certify, in writing, that all cold chain monitoring and traceability functionality deployed under this engagement complies with applicable FSMA recordkeeping and traceability requirements prior to final acceptance of any milestone involving refrigerated facilities or vehicles.

15. Contact Information

Issuing Officer	Alicia Fenwick
Title	Senior Procurement Manager, Supply Chain Technology
Email	afenwick@brightlineretail.com
Phone	(214) 555-0206

Appendix A: Pricing Form

Vendors must complete the following pricing form in full. Unit prices must be all-inclusive of labor, materials, travel, and overhead unless otherwise noted.

Line Item	Description	Price
A-1	WMS Licensing (11 Distribution Centers)	\$_____
A-2	WMS Implementation & Configuration Services	\$_____
A-3	Fleet Telematics Hardware & Licensing (780 Trucks)	\$_____
A-4	SAP ERP Integration Services	\$_____
A-5	Legacy Data Migration Services (incl. Meridian Grocers)	\$_____
A-6	Handheld Scanner Application Licensing & Deployment	\$_____
A-7	Cold Chain IoT Sensors & Monitoring Platform [NEW]	\$_____
A-8	FSMA Traceability & Reporting Module [NEW]	\$_____
A-9	Training (1,150 Staff)	\$_____
A-10	24 Months Post-Implementation Support	\$_____
A-11	Total Proposed Price	\$_____

Appendix B: Reference Form

Provide at least 5 references meeting the eligibility criteria in Section 7, including at least 2 involving cold chain/refrigerated logistics. Duplicate this table as needed.

Field	Response
Client Organization	
Contact Name & Title	
Phone / Email	
Project Scope Summary	
Facility Size / Fleet Size	
Included Cold Chain Monitoring? (Y/N)	
Contract Value	
Completion Date	

Appendix C: Compliance Certification Checklist

Requirement	Certified (Y/N)
Vendor meets minimum 8 years relevant experience	

Requirement	Certified (Y/N)
Vendor meets minimum annual revenue threshold	
Vendor holds required insurance coverage	
Vendor can provide performance bond as specified	
Proposed WMS supports lot/expiration-date tracking	
Proposed telematics platform supports 30-second GPS refresh	
Proposed solution supports FSMA-compliant traceability reporting	
Proposed hosting is cloud-only (AWS or GCP) with multi-region redundancy
