

BRIGHTLINE RETAIL GROUP

Supply Chain Procurement & Vendor Management

ORIGINAL ISSUE

REQUEST FOR PROPOSAL

Warehouse Management System (WMS) & Fleet Telematics Modernization Program

A multi-year supply chain technology modernization initiative

RFP Number	RFP-BRG-2026-0231
Issue Date	March 9, 2026
Proposal Submission Deadline	April 17, 2026, 4:00 PM CST
Issuing Organization	Brightline Retail Group (BRG)
Category	Supply Chain Technology — WMS & Fleet Telematics Systems
Estimated Contract Value	See Section 12 — Commercial Terms

1. Introduction & Background

Brightline Retail Group (“BRG” or “the Company”) is a national retail chain operating 9 regional distribution centers and a private delivery fleet of 640 trucks across 22 states, supplying 1,150 retail stores. BRG's current Warehouse Management System (WMS) was implemented in 2013 and no longer supports the throughput, integration, and reporting needs of the Company's growing store network.

In parallel, BRG's delivery fleet currently relies on a basic GPS tracking add-on with limited real-time visibility, route optimization, or driver performance reporting capability.

BRG is issuing this Request for Proposal (RFP) to solicit qualified vendors to replace its legacy WMS and implement a modern fleet telematics platform across its distribution and transportation network.

2. Definitions

Term	Definition
WMS	Warehouse Management System — software used to manage inventory, receiving, put-away, picking, and shipping within a distribution center.
ERP	Enterprise Resource Planning — BRG's existing SAP S/4HANA system of record for finance, procurement, and inventory accounting.
Telematics	Technology used to remotely track and monitor vehicle location, performance, and driver behavior.
RFID	Radio-Frequency Identification — tagging technology used for automated inventory tracking.
DC	Distribution Center — a BRG regional warehouse facility.
SLA	Service Level Agreement — a contractually defined performance commitment.

3. Project Objectives

- Replace the legacy WMS across all 9 distribution centers with a modern, cloud-capable platform.
- Implement a fleet telematics platform providing real-time location, route, and driver behavior visibility across the delivery fleet.
- Integrate the WMS with BRG's existing SAP S/4HANA ERP for inventory and financial accuracy.
- Reduce order picking errors by at least 30% within 12 months of full deployment.
- Improve on-time delivery performance to retail stores to 98% or higher.
- Equip warehouse staff with modern handheld scanning tools to replace aging RF terminals.

4. Scope of Work

1. Design, configure, and deploy a replacement WMS across 9 distribution centers, supporting receiving, put-away, picking, packing, and shipping workflows.
2. Implement a fleet telematics platform covering approximately 640 delivery trucks, including GPS tracking, route optimization, and driver behavior scoring.
3. Integrate the WMS with BRG's existing SAP S/4HANA ERP system for real-time inventory and order synchronization.

4. Migrate historical inventory, location, and SKU master data from the legacy WMS to the new platform.
5. Deploy a handheld scanning application for warehouse staff, compatible with BRG's existing Zebra device fleet.
6. Provide operator and administrator training for approximately 900 warehouse and transportation staff.
7. Provide 18 months of post-implementation technical support and system maintenance following final go-live.

5. Technical Requirements

5.1 Warehouse Management System (WMS)

- Support for barcode and RFID-based inventory tracking.
- Configurable slotting optimization and wave-picking logic.
- Real-time inventory visibility across all 9 distribution centers from a single console.
- Support for cross-docking and case-level and each-level (piece) picking.

5.2 Fleet Telematics

- Real-time GPS vehicle location tracking with a maximum 60-second refresh interval.
- Automated route optimization based on delivery windows and store priority.
- Driver behavior scoring (harsh braking, speeding, idling).

5.3 Hosting, Availability & Security

- Deployment model: cloud-hosted or on-premise — vendor may propose either model with technical and cost justification.
- System uptime service level agreement (SLA) of 99.5% or higher for hosted WMS and telematics components, measured monthly.
- Single sign-on (SSO) support via SAML 2.0, integrated with BRG's existing Active Directory.
- Encryption at rest (AES-256 or equivalent) and in transit (TLS 1.2 or higher).
- Operational and transaction data retention of a minimum of 3 years.

5.4 System Integrations

- API-based, near-real-time integration with BRG's existing SAP S/4HANA ERP system for inventory, order, and shipment data.
- Integration with BRG's existing Zebra handheld device fleet for warehouse scanning.

6. Functional Requirements Matrix

Vendors must indicate compliance with each functional requirement in their proposal response using the codes: F (Fully Compliant), P (Partially Compliant — explain), C (Customization Required), N (Not Supported).

ID	Requirement	Priority
FR-01	Real-time inventory dashboard across all distribution centers	Mandatory
FR-02	Automated wave-picking optimization	Mandatory
FR-03	Handheld scanner offline mode with sync-on-reconnect	Mandatory
FR-04	Driver behavior scoring dashboard	Desired
FR-05	Configurable KPI reporting for on-time delivery	Mandatory
FR-06	Role-based dashboard customization	Desired

7. Eligibility Criteria

To be eligible for consideration, vendors must meet all of the following minimum criteria:

- Minimum of 6 years of experience implementing WMS and/or fleet telematics systems for multi-site retail or distribution operations.
- Minimum annual revenue of \$10,000,000 (audited financials for the most recent fiscal year required).
- At least 3 reference implementations for distribution networks operating facilities of 500,000+ square feet, completed within the past 5 years.
- Minimum insurance coverage: \$3,000,000 general liability; \$1,000,000 professional liability/E&O.
- Performance bond equal to 50% of the awarded contract value.

8. Deliverables

#	Deliverable	Due
1	Project Charter & Implementation Plan	30 days after contract award
2	WMS & Telematics System Design Document	60 days after contract award
3	SAP ERP Integration Design & Test Report	100 days after contract award
4	WMS Phase 1 Deployment — 3 Pilot Distribution Centers	Per Phase 1 milestone
5	Legacy Data Migration Completion Report	Prior to Phase 2 go-live
6	Fleet Telematics Full Rollout (640 Trucks)	Per telematics milestone
7	Training Materials & Delivered Sessions (900 staff)	Prior to each go-live
8	Final Documentation Package	Project close-out

9. Project Timeline

Milestone	Date
RFP Issue Date	March 9, 2026
Vendor Q&A Deadline	March 23, 2026
Proposal Submission Deadline	April 17, 2026
Shortlist Notification	May 1, 2026
Vendor Presentations	May 11 – 15, 2026
Contract Award	May 29, 2026
Project Kickoff	June 15, 2026
WMS Phase 1 Go-Live (3 Pilot DCs)	December 2026
Fleet Telematics Full Rollout	March 2027
WMS Full Rollout (Remaining DCs)	July 2027
Full Project Completion	September 2027

10. Evaluation Criteria

Proposals will be scored on a 100-point scale as follows:

Criterion	Weight
Technical Solution & Architecture	30 points
Vendor Experience & References	20 points
Implementation Timeline	15 points
Cost	25 points
Support & Maintenance Plan	10 points

11. Insurance & Bonding Requirements

- Commercial General Liability: \$3,000,000 per occurrence.
- Professional Liability / Errors & Omissions: \$1,000,000 per claim.
- Performance Bond: 50% of total contract value, issued by a surety rated A- or better by A.M. Best.
- BRG and its officers, agents, and employees must be named as additional insureds on all policies except professional liability.

12. Commercial Terms

Estimated Project Budget: \$4,500,000 – \$6,000,000

Contract Term: 24 months, with one (1) optional 12-month renewal.

Payment Schedule

- 20% upon contract signing
- 30% upon WMS Phase 1 go-live
- 30% upon fleet telematics full rollout
- 20% upon final acceptance

Other Commercial Terms

- Warranty period: 12 months following final go-live, covering defect remediation at no additional cost.
- Payment terms: Net 45 from invoice date.
- No liquidated damages clause applies to this engagement.

13. Submission Instructions

Proposals must be submitted electronically in PDF format to procurement@brightlineretail.com no later than the deadline listed above. Proposals must remain valid for 120 days from the submission deadline. A sealed hard copy is not required. Late submissions will not be considered.

14. Terms & Conditions

14.1 Governing Law

This RFP and any resulting contract shall be governed by the laws of the State of Texas.

14.2 Confidentiality

All proposal materials submitted become the property of BRG and will be treated as confidential business information, subject to standard non-disclosure obligations between the parties.

14.3 Reservation of Rights

BRG reserves the right to reject any or all proposals, waive minor irregularities, and negotiate final contract terms with the selected vendor.

14.4 Intellectual Property

All custom configurations, integrations, and documentation developed specifically for BRG under this engagement shall become the property of BRG upon final payment. Vendor retains ownership of pre-existing, generally licensed software.

15. Contact Information

Issuing Officer	Thomas Ridley
Title	Procurement Manager, Supply Chain Technology
Email	tridley@brightlinetail.com
Phone	(214) 555-0179

Appendix A: Pricing Form

Vendors must complete the following pricing form in full. Unit prices must be all-inclusive of labor, materials, travel, and overhead unless otherwise noted.

Line Item	Description	Price
A-1	WMS Licensing (9 Distribution Centers)	\$_____
A-2	WMS Implementation & Configuration Services	\$_____
A-3	Fleet Telematics Hardware & Licensing (640 Trucks)	\$_____
A-4	SAP ERP Integration Services	\$_____
A-5	Legacy Data Migration Services	\$_____
A-6	Handheld Scanner Application Licensing & Deployment	\$_____
A-7	Training (900 Staff)	\$_____
A-8	18 Months Post-Implementation Support	\$_____
A-9	Total Proposed Price	\$_____

Appendix B: Reference Form

Provide at least 3 references meeting the eligibility criteria in Section 7. Duplicate this table as needed.

Appendix C: Compliance Certification Checklist

Requirement	Certified (Y/N)
Vendor meets minimum 6 years relevant experience	
Vendor meets minimum annual revenue threshold	
Vendor holds required insurance coverage	
Vendor can provide performance bond as specified	
Proposed WMS supports RFID and barcode tracking	

Requirement	Certified (Y/N)
Proposed telematics platform supports 60-second GPS refresh
